

Fee Acknowledgement Notice for Medicare Patients

All Medicare Patients:

The Leone Center for Orthopedic Care is a Holy Cross Hospital-based Medical Facility. We are therefore obligated to abide by the CMS (Center for Medicare Services) guidelines and regulations. CMS has determined that facility related charges are separate from professional fee charges. The charges quoted in this office are for fees related to William Leone, MD professional services only, and will not be billed to Medicare. All CMS Facility related charges must be billed at each visit.

- Facility charges, which are typically for x-rays taken in the office, are customarily covered by Medicare Part B (outpatient coverage) and/or a secondary insurance plan.
- The office will submit charges to Medicare Part B (Outpatient) for the Facility-related services.
- In most instances Medicare pays 80% of the approved amount and you or your secondary insurance will be responsible to pay the 20% co-insurance. The co-insurance amount typically ranges from \$10 to \$25 per x-ray site.
- Should you have Medicare Part A (Inpatient services), but do not have Medicare Part B (Outpatient services), you may be responsible for x-ray related charges which, typically range from \$90 to \$150 per x-ray site.

By signing below, I am acknowledging that the above information has been thoroughly explained to me and all my questions have been satisfactorily answered.
